

BUTANE POWERED MICROTORCHES & INDUSTRIAL TORCH

PALM SIZED BUTANE POWERED MICROTORCH

ITEM # MT-11

The compact palm size is perfect for tool kits and field service kits!

BUTANE POWERED MICROTORCH

ITEM # MT-51

Wide, stable base is perfect for hands free use!

- » Produces an adjustable, wind resistant flame with temperatures up to 2500°F/1300°C
- » Built-in Safety Lock with improved easy to use self-ignition system
- » Meets Consumer Products Safety Commission (CPSC) requirements
- » Built-in fuel level viewing window
- » Use with Master Ultratane® Butane for best performance
- » Pinpoint flame is perfect for soldering, de-soldering, heat shrinking and terminating, heating, lighting and many other applications

- » Open flame torch only
- » May be hand-held or used hands-free
- » Built-in self-igniting system with safety lock ensured the switch will not turn on when not in use
- » Built-in “refillable” plastic fuel tank
- » Flame temperature up to 2500°F
- » 2-hour continuous run time
- » Use to heat/ignite materials, pinpoint torch, shrink tubing, solder/de-solder, terminate specialty connectors and more

LOW PROFILE TABLE TOP W/ STABLE BASE MICROTORCH

ITEM # MT-30

60 minutes continuous run time with full charge!

- » Built-in self-igniting system with safety lock that ensures the switch is not turned on when not in use
- » Butane-powered, eliminates the need for external fuel tanks, costly piping or unsightly hoses
- » Durable self-contained, refillable metal fuel tank
- » Adjustable broad flame or pinpoint flame
- » Flame temperature approximately 2500°F
- » Use for industrial, institutional, scientific and dental laboratory applications, including shrinking tubing and specialty connectors, heating and spot drying materials, heating wax, jewelry repair and more

REFILLABLE BUTANE FUEL CELL

ITEM # RC-31

Use as a refillable fuel cell in Microtorch Models MT-11, MT-10, UT-10 & MT-30

- » Refillable with Master Ultratane® Butane
- » Shipped full with non-clogging formula that promotes consistent ignition
- » Meets ORM-D consumer commodity class and can be shipped via ground transportation without hazardous material charge
- » Not considered a cigarette lighter

All Master products are made from superior quality materials and top-notch craftsmanship. Industrial grade materials and expert assembly methods in an inviting factory setting make it possible to assure the maximum in product quality.

**HEAVY DUTY
BUTANE
INDUSTRIAL
TORCH**

ITEM # GT-70

Large fuel capacity, 80 cc self-contained tank for 30-minute continuous run time!

- » Self-igniting piezo electric ignition that is easy to start and eliminates the need for a lighter
- » Large-sized adjustable blue flame that accommodates many heavy-duty industrial applications with temperatures up to 2500°F/1300°C
- » Safety lock that prevents unintentional ignition locks for storage
- » Meets Consumer Products Safety Commission (CPSC) requirements
- » Used to braze with special alloy welding rods, heat and bend thin metals, loosen rusted bolts, pop dents out of metal, shrink and terminate heavy wall adhesive lined tubing, solder and de-solder, etc.

**MASTER BUTANE
POWERED
CANISTERS**

ITEM # 51733

(5-1/8 oz net wt)

ITEM # 10448

(15/16 oz net wt)

Special vapor pressure promotes consistent ignition!

- » Triple refined formula reduces clogging of filters
- » Contains no CFC's, canister with single piece universal filling tip
- » Recommended refill for all Ultratorch® and Master Butane-powered products

**MINI TRIGGER TORCH
WITH SIDE LOCK**

ITEM # MT-70

Self-igniting piezo electronic ignition is easy to start and eliminates the need for a lighter or matches!

- » Gas adjustment wheel provides adjustable, long blue torch flame with temperatures up to 2500°F
- » Meets Consumer Products Safety Commission (CPSC) Child Safety Requirements
- » Hands free slide lock for continuous and instant off operation
- » Ergonomic handle design ensures a non-slip grip
- » Durable self-contained, refillable plastic fuel tank
- » Used to heat parts, ignite materials, melt plastic, shrink tubing, solder/de-solder and terminate specialty connectors and more

**SOLDERING
IRON AND
FLAMELESS
HEAT TOOL
TRIGGER
TORCH**

ITEM # MT-76 (Trigger Torch)

ITEM # MT-76K (Trigger Torch Kit)

ITEM # 35386 (Solder Tip)

ITEM # 35387 (Heat Tip)

- » MT-76 includes soldering iron and heat tip for soldering up to 752°F/400°C and heating up to 932°F/500°C
- » MT-76K includes trigger torch, removable stand, 5" wire cutter, 5" needle nose pliers, solder tip, heat tip, shrink attachment, polyfoam cutter, hot knife tip, roll 60/40 solder and stand with sponge packed in a durable plastic case
- » Gas adjustment wheel provides adjustable long blue torch flame with temperatures up to 2500°F/1300°C
- » Meets Consumer Products Safety Commission (CPSC) requirements
- » Unique shutter level extinguishes ignition flame before using soldering or heat tip to prevent overheating
- » Unit is shipped without fuel: Master Ultratane® Butane
- » Used to heat parts, ignite materials, melt plastic, pin point torch, shrink tubing, solder and de-solder, terminate specialty connectors and more
