## SPIRALITE 310

PVC Yellow 570 PSI Spray Hose

- Yellow PVC ribbed cover & smooth tube with woven fabric reinforcement construction.
- Best combination of flexibility, durability, and value.
- General applications include agricultural spraying, pest control, transferring compressed water and air.
- -10°F to +130°F temperature range.
- 300ft standard length.

## SPIRALITE 320

PVC Orange 560 PSI Spray Hose

- Orange PVC ribbed cover, smooth tube with spiral yarn reinforcement construction.
- Durable and flexible.
- General applications include agricultural spraying, pest control, transferring compressed water and air.
- -10°F to +130°F temperature range.
- 300ft standard length.

## SPIRALITE 340

PVC Green 800 PSI Spray Hose

- Green PVC ribbed cover, smooth tube with woven fabric reinforcement.
- High working pressure in a light weight, flexible package.
- General applications include agricultural spraying, pest control, transferring compressed water and air.
- -10°F to +130°F temperature range.
- 300ft standard length.
