

PROTECTION FIRST CLASS

LONG-LASTING, SOLVENT-FREE PROTECTION

Lanolin-based formula gives long-lasting protection from rust and corrosion by covering metal with a clear wax film that does not wash off, collect dust, or dry out like oil, silicone, or solvent-based products.

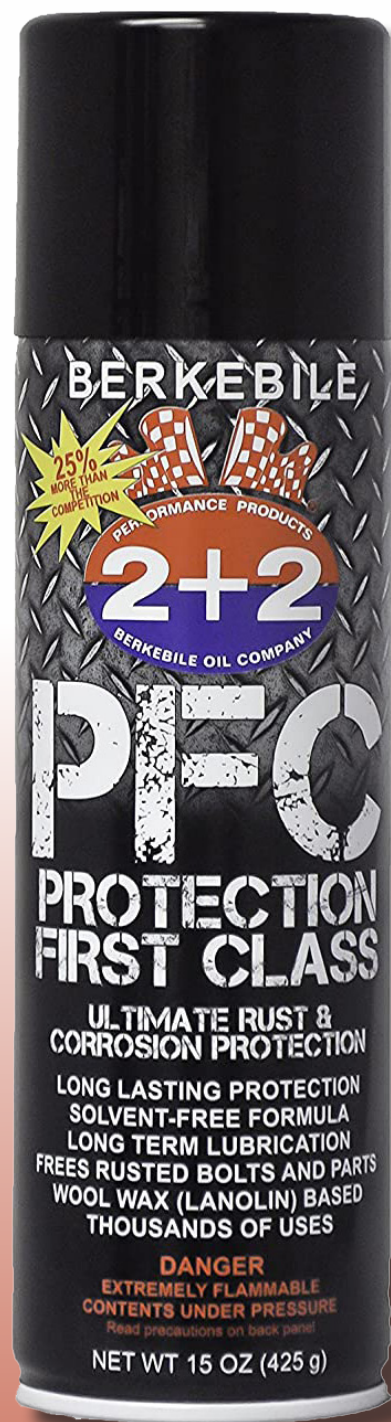

LONG-TERM LUBRICATION

Formula penetrates the pores of metal, protecting from moisture, salt, and corrosion, and is excellent for vehicle undercoating.

THOUSANDS OF USES

Frees rusted nuts, bolts, and parts; protects electrical connections, battery terminals, switches, trailer lights, snow plow connections, and more; and will not harm paints, synthetic rubber, or plastic.
