

TIGER INOX

HIGH PERFORMANCE CUTTING WHEELS

FEATURES & BENEFITS

- » Specifically designed for high performance when cutting stainless steel
- » Incorporates a contaminant-free bond that delivers a worry-free solution for stainless steel applications
- » Dual reinforcement for fast cut and long life cutting on stainless steel and other hard to grind metals
- » Thin cutting wheels deliver accurate, clean cuts
- » Depressed center provides added clearance when working at a constrained angle
- » Velo mesh on non-blotter side provides reduced friction when cutting
- » Open arbor offers a cost-effective mounting option when using adaptive units
- » Used with die grinder and right angle die grinder
- » 0.045 wheel thickness is ideal for cutting tubes, bar stock, and large cross-sections with a right angle grinder

TYPE 27 INOX60S CUTTING WHEELS

0.045" Thickness | 13,300 Maximum RPM | INOX60S Grade
