

TYPE R HUB STYLE SURFACE CONDITIONING DISCS

FEATURES

Open construction, scrim reinforcement, and a superior resist system

Minimize loading, heat build-up, fraying of disc edges, grain shedding, and extend disc life to provide superior performance

Compatible with 3M Roloc back-up pads

APPLICATIONS

Light deburring, surface preparation, blending light scratches, removing rust, corrosion, and oxidation, cleaning and removing stains from stainless steel, and producing satin finishes on aluminum and stainless steel
